INSTITUTION: Marshall University

RECOMMENDED RESOLUTION:

RESOLVED, That the West Virginia Higher Education Policy Commission approves the Biotechnology Incubator and Applied Engineering Complex and the Indoor Athletic Complex as provided in West Virginia Code §18B-19 for projects in excess of $15 million.

FURTHER RESOLVED, That the West Virginia Higher Education Policy Commission approves the Resolution prepared by bond counsel approving and authorizing the issuance of revenue bonds by the Marshall University Board of Governors to finance, in whole or part, the capital improvements included or to be included in the Marshall University Campus Master Plan, specifically the Biotechnology Incubator and Applied Engineering Complex, the Indoor Athletic Complex, the Multi-Floor Parking Structure, the Soccer Stadium Complex, the Fine Arts Incubator/Visual Arts Project, the Modern Academic Instructional (High Technology) Facility and Land Acquisition/Demolition in an aggregate principal amount not exceeding $54 million.

FURTHER RESOLVED, That the West Virginia Higher Education Policy Commission approves a modification to Marshall University’s Campus Master Plan to locate the Fine Arts Incubator and Visual Arts Project in the former Stone & Thomas Building in downtown Huntington, add the Multi-Floor Parking Structure and the Soccer Stadium Complex, and build the Modern Academic Instructional (High Technology) Facility in the location shown in the presentation material.
BACKGROUND:

As provided in West Virginia Code §18B-19, Marshall University (Marshall) is requesting approval of capital improvements exceeding $15 million. The total budget includes $114 million for major capital projects and land acquisition and it identifies the cost and timing of expenditures for each project, as well as sources of revenue.

The projects that exceed $15 million and require Commission approval are as follows:

- Indoor Athletic Complex, $25 million; and
- Biotechnology Incubator and Applied Engineering Complex, $50 million.

In addition, Marshall is requesting approval of a resolution prepared by Huddleston Bolen LLP, its bond counsel, to authorize a bond issue to finance, in whole or part, the capital improvements in its Master Plan in an aggregate principal amount not exceeding $54 million.

The following summaries are provided for the projects exceeding $15 million that require Commission approval. Marshall will review the projects in greater detail at the meeting.

Indoor Athletic Complex

The Indoor Practice Facility is an expanded concept of the project shown on the original 2003 Ten Year Master Plan and includes a Student Athlete Academic Center and a Sports Medicine Translational Research Center. The Indoor Practice Facility will house a climate-controlled, 100 yard multipurpose turf football field designed to ensure conditions conducive to team practices/workouts for football, as well as baseball, softball, soccer, tennis and track teams during intemperate heat, cold and inclement weather conditions. It will also feature a six-lane, 200-yard indoor track overlaid on the football field and a 100 yard sprint straightaway for the Women’s Track Team and further program compliance with NCAA Title IX regulations.

Total Budget: $14 million
Size: 100,000 GSF
Completion Date: June 2014

The Student Athlete Academic Center will be located on the second floor in the interconnected, adjacent facility. This center will be a state-of-the-art student academic, advising and study center committed to providing the services and support for the academic success of student athletes.

Total Budget: $3.5 million
Size: 12,000 GSF
Completion Date: June 2014

The Sports Medicine Translational Research Center will be located on the first floor below the Student Athlete Academic Center. The development of a robust, interdisciplinary research center is envisioned. It will feature clinical research scientists from the Schools of Medicine, Pharmacy, Physical Therapy, Kinesiology and Athletic Training as well as human performance specialists, sports psychologists, neuroscientists and cognitive scientists all focused on optimizing human capabilities and athletic performance and the treatment of physical infirmities.

Total Budget: $7.5 million
Size: 18,000 GSF
Completion Date: June 2014

**Biotechnology Incubator and Applied Engineering Complex**

The construction site chosen for the Biotechnology Incubator and Applied Engineering Complex, as shown on the 2008 Five-year Campus Master Plan Update will be located adjacent to the Biotechnology Science Center. It is envisioned that the building will house the College of Information Technology and Engineering (CITE), Bio-Technology Incubator, Appalachian Water Resources and Environmental Sciences Lab, Mathematics and Computational Science, Digital Forensics, CEGAS and it is proposed that the Marshall University Research Corporation be relocated to this facility.

Total Budget: $50 million
Size: 140,000 GSF
Completion Date: March 2014

The following projects do not require approval of the Commission since the total cost of planning, design and construction is less than $15 million. A project summary is provided for information since they are to be funded, in whole or part, from bond proceeds.

**Multi-floor Parking Structure**

Due to the loss of parking spaces to make way for the new Biotechnology Incubator and Applied Engineering Complex, a new multi-floor parking structure is proposed and will be located on Sixth Avenue and 17th Street on University owned property. This structure will not only provide for lost spaces but also provide a location for those events/meetings/presentations held at the Memorial Student Center, the Foundation Hall and the Joan C. Edwards Playhouse.

Total Budget: $7 million
Size: 4-6 Levels
Completion Date: September 2012
Soccer Stadium Complex
This facility will be located east of the main campus at the Veterans Memorial Field House on Fifth Avenue and 26th Street on property soon to be acquired by the University. This location will make way for the expanded concept of the Indoor Practice Facility complex and provide much needed space for Men’s and Women’s Soccer. The new facility will be within walking distance of the main campus facilities.

Total Budget: $5.4 million  
Size: 164,278 GSF  
Completion Date: May 2013

Fine Arts Incubator-Visual Arts Project
The Fine Arts Incubator/Visual Arts Facility will be relocated west of the main campus in the former Stone & Thomas Building in downtown Huntington. This facility was previously shown on the 2003 Campus Master Plan as being located next to the Joan C. Edwards Playhouse on Fifth Avenue and 17th Street.

The Stone & Thomas Building was purchased August 2010 for the development of a Fine Arts Incubator/Visual Arts Facility. The downtown location on Third Avenue and 10th Street is viewed as a prime opportunity for cooperative development. The development of this property can become not only an asset to Marshall University educationally, but also economically to the City of Huntington. The facility is within walking distance from the main campus. The relocation of the Department of Visual Arts and Design will free up space in its current location in Smith Hall for reassignment to other disciplines.

Total Budget: $11 million  
Size: 67,200 GSF  
Completion Date: January 2014

Modern Academic Instructional (High Technology) Facility
This facility was identified in the 2008 Update to the University’s Campus Master Plan. The proposed site selected is on Third Avenue and 18th Street. The facility will provide a highly flexible state-of-the-art space and learning environment for students.

Total Budget: $14 million  
Size: 36,000 GSF  
Completion Date: September 2014

Land Acquisition/Demolition

The additional land acquisitions will pave the way for future growth of the institution.

Total Budget: $2 million

Tuition Peer Comparison

The University competes with many public and private colleges and universities for qualified students and is very competitive with respect to pricing power.

- The table to the right shows the twenty state-supported institutions designated by the West Virginia Higher Education Policy Commission as the University’s peers.

- The amounts show undergraduate tuition and mandatory fees for in-state and out-of-state students for the 2010-2011 academic year.

- Among its designated peers, Marshall’s tuition rates rank 5th lowest for in-state tuition and 4th lowest for out-of-state tuition.

- These low tuition rates allow Marshall to remain competitive in the State and the region.
